To reach the \$1,500,000,0 goal set by the Liberty Loan Committee this district for the remaining six days of the campaign must subscribe for the new issue of government bonds at the rate of \$141,667,000 a day.

Although \$475,000.000 behind schedule when business closed yesterday, the Loan Committee lats night expressed the belief that the State and those sections of New Jersey and Connecticut included in the Second Federal Reserve District will have taken their full quota the bonds when the subscription

The fact that many thousands of small subscriptions have been accumulated by the banks since the campaign starped and not yet reported, will, it is expected, result in larger daily gains this week than have been reported so far. Harry Lauder played a return engagement at the Sub-Treasury. At the conclusion of his talk he told the crowd that three persons had agreed to duplicate the total subscriptions taken in by him if they amounted to \$5,000 or more. His sules ran above that figure within a few minutes.

Summarizing the developments of the day and the week, the Treasury issued this statement to-night:

"Half holidays in many districts caused sales to slump. A snowstorm in the Northwest also kept an army of 50,000 workers virtually idle in the Minneapolis district, just as they were making their best strides. The holiday cut in badly on New York's total, where an advance of only \$55,000,000
